MEMORANDUM FOR: Chief, Development and Engineering Division, TS&SG/NPIC
THROUGH: Chief, Technical Services & Support Group, NPIC *JWC*
Chief, Production Services Group, NPIC S-J
SUBJECT: ADP Consulting Services

1. As a follow-up to our discussions last week regarding the improvement of communications between DED and AID, AID has designated the following individuals to provide consultative services on the specified R&D projects:

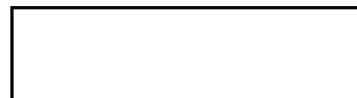

Automated Graphics
Automatic Stereo Scanner
Cloud Screening
High Precision Stereo Comparator
Image Manipulation/Restoration

25X1

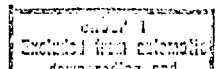

It is our intent, as I am sure it is yours, that no R&D project should suffer from poor communications or from a lack of cooperation. The AID consultants cannot, of course, make commitments involving AID resources, either software or hardware. The knowledge they acquire pertaining to their assigned R&D projects should, however, place both DED and AID in a better posture to assess the various hardware/software alternatives and to agree on a correct course of action.

2. I would appreciate your providing AID with a list of the DED personnel responsible for the above projects. Also, please advise if we have overlooked any computer-related projects in preparing our list.
